Abstract

The scientific research society, Sigma Xi, is an honorary organization whose purpose is to encourage original investigations in pure and applied sciences. This collection is composed of a history of Sigma Xi at South Dakota State University, newsletters, lecture information, graduate student research award material, and science and engineering fair information.

Historical Note

The scientific research society, Sigma Xi, is an honorary organization whose purpose is to encourage original investigations in pure and applied sciences.

During the 1940's, a group of faculty members at South Dakota State University established what was called the Natural Science Research Club. Members met once a month to hear one of the group report on his or her research findings. It was felt that this would expand the awareness of the faculty to research in progress on this campus, provide a broadened overview and discussion of various research projects, and encourage the faculty in their research effort by providing a show of interest in their work.

The Natural Science Research Club was a very active organization. After a few years, its members decided that they should establish themselves as a Sigma Xi Club, which would continue as it was already operating but, in addition, would have the advantages of formal outside contacts through the national Society. This was accomplished during 1952-53.

The number of Sigma Xi members increased significantly as the result of the influx of new personnel who had been granted membership at other institutions. By 1959, it was felt that the club was ready for chapter status. In 1960, a petition for chapter status was presented to the national office of the Society. Chapter status was granted in May of 1961.

Contents Note

This collection is composed of a history of Sigma Xi at South Dakota State University, newsletters, lecture information, graduate student research award material, and science and engineering fair information.

Administrative Information

Conditions Governing Access

This collection is open to researchers without restrictions. The materials in the Archives do not circulate and may be used in-house only.

Researchers conducting extensive research are asked to make an advance appointment to access archival material. Please call or e-mail prior to visiting the collection and indicate as much detail as possible about a particular topic and intended use.

South Dakota State University supports access to the materials, published and unpublished, in its collections. Nonetheless, access to some items may be restricted as a result of their fragile condition or by contractual agreements with donors.

Copyright note

Copyright restrictions apply in different ways to different materials. Many of the documents and other historical materials in the Archives are in the public domain and may be reproduced and used in any way. There are other materials in the Archive carrying a copyright interest and must be used according to the provisions of Title 17 of the U.S. Code. The Archive issues a warning concerning copyright restrictions to every researcher who requests copies of documents. Although the copyright law is under constant redefinition in the courts, it is ultimately the responsibility of the researcher to properly use copyrighted material.
